

LICENTIATE, DOCTORAL PROGRAM

APRA

RIGOROUS AND INTERDISCIPLINARY RESEARCH OF BIOETHICAL ISSUES FOR THE PRESERVATION OF LIFE LOYAL TO THE MAGISTERIUM OF THE CHURCH AND IN DIALOGUE WITH CONTEMPORARY SOCIETY.

PRESENTATION

The Faculty of Bioethics seeks to deepen and consolidate a way of thinking in line with the "culture of life" (cf. *Evangelium Vitae*), promoting the integral respect of every human person from conception until natural death and promoting dialogue between cultures and religions. The Faculty of Bioethics offers the Academic Degree Cycles of **Licentiate** and **Doctoral Program**.

AUDIENCE

Doctors and health personnel; Researchers in biomedicine, Priests, Legal Workers, Educators, Journalists, Politicians, Engineers, Physicians, Bioethicists, Philosophers, Theologists.

ADMISSION REQUIREMENTS

Cycle I-II Degrees and Related and/or Equivalent Degrees.

CAREER OPPORTUNITIES

Bioethics Committees, Nongovernmental Organization (NGOs), Hospital Ethics Committees, Pharmaceutical Companies, Prolife Organizations, Media, Teaching in Schools and Universities.

EDUCATIONAL INNOVATION

The Pedagogical model, renewed and approved by the Dicastery for Culture and Education, integrates technology into the educational process for better integral development of students. In continuous relationship with the teacher, and supported by new tools, the student is the protagonist active in his own learning.

APRA INNOVATION AS A HOLISTIC PERSPECTIVE

At APRA, you will have the opportunity to experience an integral and constantly updated academic path that offers you the appropriate pedagogical and technological tools to integrate knowledge, traditions and ensure personalized attention at the service of the positive transformation of society. Following Pope Francis's exhortation, let us together undertake a «courageous cultural revolution» at the service of the Church's evangelizing mission.
